

ANALYSIS CERTIFICATE

(The Drugs & Cosmetics Act 1945 Rules There Under)
Drug License No: G/25/2096

Report No: SBIP-112

Date: MAR-2026

1. Sample:

SODIUM BENZOATE-IP

2. From

SWASTIK INDUSTRIES

3(a) Lot No:	3(b) Qty Of Sample	3(c) Date Of Mfg.	3(d) Qty Of Lot	3(e) Date Of Exp.
SBIP-112	2X50Gms	MAR-2026	2000 Kg	5 Yrs. From Mfg Date

4. Result Analysis.

Description: White crystalline & granular powder or flakes with a faint odor, hygroscopic

Solubility:	Complies	Freely soluble in water & sparingly in Ethanol (95%)
Acidity or Alkalinity	0.07ml	NMT 0.2ml of 0.1M hydrochloric acid or 0.2ml of 0.1M sodium hydroxide should be required to change the Colour of the solution.
Identification	Complies	A) To a 10% w/v solution add FeCl ₃ test solution a buff-coloured precipitate is formed. Add dilute. HCL ; white crystalline precipitate is produced. B) Reactions Of sodium salts, Reaction of benzoate.
Appearance of solution	Complies	A 10% w/v solution in CO ₂ -free water is clear, and not more intensity coloured than reference solution Y56.
Arsenic :	1.7 PM	(NMT 2.0 PPM)
Heavy Metals:	06 PPM	(NMT 10 PPM)
Loss on Drying:	1.7 %	(NMT 2.0%)
Chlorinated Compounds:	22 PPM	(NMT 25 PPM)
Assay:	99.94%	99%-100.5% on dry basis (Titrimetric Method)

5. Report: The Samples complies With IP-2022 Specifications of the quality & quantity & shown the above results.

6. Storage: Store Protected From Moisture & Preserve in Well-Closed Containers.

For, Swastik Industries,

Analytical Chemist.
